WASHINGTON : 2003

MAKING FURTHER CONTINUING APPROPRIATIONS FOR
THE FISCAL YEAR 2003, AND FOR OTHER PURPOSES

FEBRUARY 13 (legislative day, FEBRUARY 12), 2003.—Ordered to be printed

Mr. YOUNG of Florida, from the committee of conference,
submitted the following

CONFERENCE REPORT

[To accompany H.J. Res. 2]

The committee of conference on the disagreeing votes of the two Houses on the amendment of the Senate to the joint resolution (H.J. Res. 2), “making further continuing appropriations for the fiscal year 2003, and for other purposes”, having met, after full and free conference, have agreed to recommend and do recommend to their respective Houses as follows:

That the House recede from its disagreement to the amendment of the Senate and agree to the same with an amendment as follows:

In lieu of the matter proposed to be inserted by the Senate amendment, insert the following:

SECTION 1. SHORT TITLE.

This joint resolution may be cited as the “Consolidated Appropriations Resolution, 2003”.

SEC. 2. TABLE OF CONTENTS.

The table of contents for this joint resolution is as follows:

Sec. 1. Short title.

Sec. 2. Table of contents.

Sec. 3. References.

SEC. 3. REFERENCES.

Except as expressly provided otherwise, any reference to “this Act” contained in any division of this joint resolution shall be treated as referring only to the provisions of that division.

DIVISION A—AGRICULTURE, RURAL DEVELOPMENT, FOOD AND DRUG ADMINISTRATION, AND RELATED AGENCIES PROGRAMS APPROPRIATIONS, 2003

Making appropriations for Agriculture, Rural Development, Food and Drug Administration, and Related Agencies programs for the fiscal year ending September 30, 2003, and for other purposes.

That the following sums are appropriated, out of any money in the Treasury not otherwise appropriated, for Agriculture, Rural Development, Food and Drug Administration, and Related Agencies programs for the fiscal year ending September 30, 2003, and for other purposes, namely:

TITLE I

AGRICULTURAL PROGRAMS

PRODUCTION, PROCESSING, AND MARKETING

OFFICE OF THE SECRETARY

For necessary expenses of the Office of the Secretary of Agriculture, \$3,412,000: Provided, That not to exceed \$11,000 of this amount shall be available for official reception and representation expenses, not otherwise provided for, as determined by the Secretary.

EXECUTIVE OPERATIONS

CHIEF ECONOMIST

For necessary expenses of the Chief Economist, including economic analysis, risk assessment, cost-benefit analysis, energy and new uses, and the functions of the World Agricultural Outlook Board, as authorized by the Agricultural Marketing Act of 1946 (7 U.S.C. 1622g), \$8,566,000.

This division may be cited as the “District of Columbia Appropriations Act, 2003”.

**DIVISION D—ENERGY AND WATER DEVELOPMENT
APPROPRIATIONS, 2003**

Making appropriations for energy and water development for the fiscal year ending September 30, 2003, and for other purposes.

That the following sums are appropriated, out of any money in the Treasury not otherwise appropriated, for the fiscal year ending September 30, 2003, for energy and water development, and for other purposes, namely:

TITLE I

DEPARTMENT OF DEFENSE—CIVIL

DEPARTMENT OF THE ARMY

CORPS OF ENGINEERS—CIVIL

The following appropriations shall be expended under the direction of the Secretary of the Army and the supervision of the Chief of Engineers for authorized civil functions of the Department of the Army pertaining to rivers and harbors, flood control, shore protection, and related purposes.

GENERAL INVESTIGATIONS

For expenses necessary for the collection and study of basic information pertaining to river and harbor, flood control, shore protection, and related projects, restudy of authorized projects, miscellaneous investigations, and, when authorized by laws, surveys and detailed studies and plans and specifications of projects prior to construction, \$135,019,000, to remain available until expended: Provided, That in conducting the Southwest Valley Flood Damage Reduction Study, Albuquerque, New Mexico, the Secretary of the Army, acting through the Chief of Engineers, shall include an evaluation of flood damage reduction measures that would otherwise be excluded from the feasibility analysis based on policies regarding the frequency of flooding, the drainage areas, and the amount of runoff: Provided further, That the Secretary of the Army, acting through the Chief of Engineers, is directed to use funds appropriated herein to determine the advisability of undertaking restoration, modification, or modernization of the Great Lakes Navigational System, including the St. Lawrence Seaway; as provided for in section 456 of Public Law 106–53 (113 Stat. 332): Provided further, That in making such determination, the Secretary of the Army, acting through the Chief of Engineers, may partner with the St. Lawrence Seaway Development Corporation and Transport Canada or another designated representative of the Government of Canada and may accept from such partners cash, in-kind services, or any combination thereof, to be expended or used by the Secretary in addition to the funds identified herein for the purpose of making such determination.

CONSTRUCTION, GENERAL

For the prosecution of river and harbor, flood control, shore protection, and related projects authorized by laws; and detailed studies, and plans and specifications, of projects (including those for development with participation or under consideration for participation by States, local governments, or private groups) authorized or made eligible for selection by law (but such studies shall not constitute a commitment of the Government to construction), \$1,756,012,000, to remain available until expended, of which such sums as are necessary for the Federal share of construction costs for facilities under the Dredged Material Disposal Facilities program shall be derived from the Harbor Maintenance Trust Fund, as authorized by Public Law 104-303; and of which such sums as are necessary pursuant to Public Law 99-662 shall be derived from the Inland Waterways Trust Fund, for one-half of the costs of construction and rehabilitation of inland waterways projects, including rehabilitation costs for the Lock and Dam 11, Mississippi River, Iowa; Lock and Dam 12, Mississippi River, Iowa; Lock and Dam 24, Mississippi River, Illinois and Missouri; Lock and Dam 3, Mississippi River, Minnesota; and London Locks and Dam, Kanawha River, West Virginia, projects; and of which funds are provided for the following projects in the amounts specified:

San Timoteo Creek (Santa Ana River Mainstem), California, \$7,000,000;

Southern and Eastern Kentucky, Kentucky, \$3,000,000; and Clover Fork, City of Cumberland, Town of Martin, Pike County (including Levisa Fork and Tug Fork Tributaries), Bell County, Harlan County in accordance with the Draft Detailed Report dated January 2002, Floyd County, Martin County, and Johnson County, Kentucky, elements of the Levisa and Tug Forks of the Big Sandy River and Upper Cumberland River, Kentucky, \$26,100,000: Provided, That, using \$200,000 of the funds appropriated herein, the Secretary of the Army, acting through the Chief of Engineers, is directed to continue work on the Bois Brule Drainage and Levee District, Missouri, design deficiency project under the terms and conditions specified in Public Law 107-66: Provided further, That using \$9,744,000 of the funds appropriated herein, the Secretary of the Army, acting through the Chief of Engineers, is directed to continue construction of the Dallas Floodway Extension, Texas, project, including the Cadillac Heights feature, generally in accordance with the Chief of Engineers report dated December 7, 1999: Provided further, That the Secretary of the Army, acting through the Chief of Engineers, is directed to use \$4,000,000 of the funds appropriated herein to undertake the Bowie County Levee, Texas, project, which is defined as Alternative B, Local Sponsor Option, in the Corps of Engineers document entitled Bowie County Local Flood Protection, Red River, Texas, Project Design Memorandum No. 1, Bowie County Levee, dated April 1997: Provided further, That cost sharing for the Bowie County Levee, Texas, project shall be in accordance with the provisions of the Flood Control Act of 1946: Provided further, That the Secretary of the Army is directed to accept advance funds, pursuant to section 11 of the River and Harbor Act of 1925, from the non-

Federal sponsor of the Los Angeles Harbor, California, project authorized by section 101(b)(5) of Public Law 106-541, which are needed to maintain the project schedule: Provided further, That using \$1,000,000 of the funds provided herein, the Secretary of the Army, acting through the Chief of Engineers, is directed to conduct, at full Federal expense, technical studies of individual ditch systems identified by the State of Hawaii, and to assist the State in diversification by helping to define the cost of repairing and maintaining selected ditch systems: Provided further, That the Secretary of the Army, acting through the Chief of Engineers, is directed to use \$1,000,000 of the funds appropriated herein to continue construction of the navigation project at Kaunapali Harbor, Hawaii: Provided further, That the Secretary of the Army, acting through the Chief of Engineers, is directed to use \$2,000,000 of the funds provided herein for Dam Safety and Seepage/Stability Correction Program to continue construction of seepage control features at Waterbury Dam, Vermont: Provided further, That the Secretary of the Army, acting through the Chief of Engineers, is directed to use \$13,400,000 of the funds appropriated herein to proceed with planning, engineering, design or construction of the Grundy, Buchanan County, and Dickenson County, Virginia, elements of the Levisa and Tug Forks of the Big Sandy River and Upper Cumberland River Project: Provided further, That the Secretary of the Army, acting through the Chief of Engineers, is directed to use \$5,500,000 of the funds appropriated herein to proceed with the planning, engineering, design or construction of the Lower Mingo County, Upper Mingo County, Wayne County, McDowell County, West Virginia, elements of the Levisa and Tug Forks of the Big Sandy River and Upper Cumberland River Project: Provided further, That the Secretary of the Army, acting through the Chief of Engineers, is directed to continue the Dickenson County Detailed Project Report as generally defined in Plan 4 of the Huntington District Engineer's Draft Supplement to the Section 202 General Plan for Flood Damage Reduction dated April 1997, including all Russell Fork tributary streams within the County and special considerations as may be appropriate to address the unique relocations and resettlement needs for the flood prone communities within the County: Provided further, That the Secretary of the Army, acting through the Chief of Engineers, is directed to proceed with the construction of the Seward Harbor, Alaska, project, in accordance with the Report of the Chief of Engineers, dated June 8, 1999, and the economic justification contained therein: Provided further, That the Secretary of the Army, acting through the Chief of Engineers, is directed to proceed with the construction of the Wrangell Harbor, Alaska, project in accordance with the Chief of Engineer's report dated December 23, 1999: Provided further, That, of the funds provided herein, \$3,000,000 shall be made available for the Galena Bank Stabilization Project in Galena, Alaska: Provided further, That the Secretary of the Army, acting through the Chief of Engineers, is authorized and directed to use \$5,000,000 of Construction, General funding as provided herein for construction of an emergency outlet from Devils Lake, North Dakota, to the Sheyenne River,

at an estimated total cost of \$100,000,000, which shall be cost-shared in accordance with section 103 of the Water Resources Development Act of 1986, as amended (33 U.S.C. 2213), except that the funds shall not become available unless the Secretary of the Army determines that an emergency (as defined in section 102 of the Robert T. Stafford Disaster Relief and Emergency Assistance Act (42 U.S.C. 5122)) exists with respect to the emergency need for the outlet and reports to Congress that the construction is technically sound and environmentally acceptable, and in compliance with the National Environmental Policy Act of 1969 (42 U.S.C. 4321 et seq.): Provided further, That the justification for the emergency outlet shall be fully described, including the analysis of the benefits and costs, in the project plan documents: Provided further, That the plans for the emergency outlet shall be reviewed and, to be effective, shall contain assurances provided by the Secretary of State, that the project will not violate the Treaty Between the United States and Great Britain Relating to the Boundary Waters Between the United States and Canada, signed at Washington, January 11, 1909 (36 Stat. 2448; TS 548) (commonly known as the "Boundary Waters Treaty of 1909"): Provided further, That the Secretary of the Army shall submit the final plans and other documents for the emergency outlet to Congress: Provided further, That no funds made available under this Act or any other Act for any fiscal year may be used by the Secretary of the Army to carry out the portion of the feasibility study of the Devils Lake Basin, North Dakota, authorized under the Energy and Water Development Appropriations Act, 1993 (Public Law 102-377), that addresses the needs of the area for stabilized lake levels through inlet controls, or to otherwise study any facility or carry out any activity that would permit the transfer of water from the Missouri River Basin into Devils Lake.

FLOOD CONTROL, MISSISSIPPI RIVER AND TRIBUTARIES, ARKANSAS, ILLINOIS, KENTUCKY, LOUISIANA, MISSISSIPPI, MISSOURI, AND TENNESSEE

For expenses necessary for prosecuting work of flood control, rescue work, repair, restoration, or maintenance of flood control projects threatened or destroyed by flood, as authorized by law (33 U.S.C. 702a and 702g-1), \$344,574,000, to remain available until expended: Provided, That the Secretary of the Army, acting through the Chief of Engineers, using \$10,000,000 of the funds provided herein, is directed to continue design and real estate activities and to initiate the pump supply contract for the Yazoo Basin, Yazoo Backwater Pumping Plant, Mississippi: Provided further, That the pump supply contract shall be performed by awarding continuing contracts in accordance with 33 U.S.C. § 621.

OPERATION AND MAINTENANCE, GENERAL

For expenses necessary for the preservation, operation, maintenance, and care of existing river and harbor, flood control, and related works, including such sums as may be necessary for the maintenance of harbor channels provided by a State, municipality or other public agency, outside of harbor lines, and serving essential

needs of general commerce and navigation; surveys and charting of northern and northwestern lakes and connecting waters; clearing and straightening channels; and removal of obstructions to navigation, \$1,940,167,000, to remain available until expended, of which such sums as become available in the Harbor Maintenance Trust Fund, pursuant to Public Law 99-662, may be derived from that Fund, and of which such sums as become available from the special account established by the Land and Water Conservation Act of 1965, as amended (16 U.S.C. 460l), may be derived from that account for construction, operation, and maintenance of outdoor recreation facilities: Provided, That using \$888,000 of the funds appropriated herein, the Secretary of the Army, acting through the Chief of Engineers, is directed to undertake recreation improvements associated with the pool raise at Waco Lake, Texas: Provided further, That the Secretary of the Army, acting through the Chief of Engineers, is directed to use \$3,160,000 of the funds appropriated herein to undertake work to expand or improve recreational facilities and undertake environmental restoration activities at the Hansen Dam Recreation Area, California, consistent with the Hansen Dam Recreation Area Master Plan: Provided further, That of funds appropriated herein, for the Intracoastal Waterway, Delaware River to Chesapeake Bay, Delaware and Maryland, the Secretary of the Army, acting through the Chief of Engineers, is directed to reimburse the State of Delaware for normal operation and maintenance costs incurred by the State of Delaware for the SR1 Bridge from station 58+00 to station 293+00 between October 1, 2002, and September 30, 2003: Provided further, That the Secretary of the Army, acting through the Chief of Engineers, is directed to use funds appropriated herein to rehabilitate the existing dredged material disposal site for the project for navigation, Bodega Bay Harbor, California, and to initiate maintenance dredging of the Federal channel: Provided further, That the Secretary shall make suitable material excavated from the site as part of the rehabilitation effort available to the non-Federal sponsor, at no cost to the Federal Government, for use by the non-Federal sponsor in the development of public facilities.

FLOOD CONTROL AND COASTAL EMERGENCIES

For expenses necessary for emergency flood control, hurricane response, and emergency shore protection and related activities, \$15,000,000, to remain available until expended.

REGULATORY PROGRAM

For expenses necessary for administration of laws pertaining to regulation of navigable waters and wetlands, \$139,000,000, to remain available until expended.

FORMERLY UTILIZED SITES REMEDIAL ACTION PROGRAM

For expenses necessary to clean up contamination from sites throughout the United States resulting from work performed as part of the Nation's early atomic energy program, \$145,000,000, to remain available until expended.

GENERAL EXPENSES

For expenses necessary for general administration and related functions in the Office of the Chief of Engineers and offices of the Division Engineers, activities of the Humphreys Engineer Center Support Activity, the Institute for Water Resources, and headquarters support functions at the USACE Finance Center, \$155,151,000, to remain available until expended: Provided, That no part of any other appropriation provided in title I of this Act shall be available to fund the activities of the Office of the Chief of Engineers or the executive direction and management activities of the division offices: Provided further, That none of these funds shall be available to support an office of congressional affairs within the executive office of the Chief of Engineers.

ADMINISTRATIVE PROVISIONS

Appropriations in this title shall be available for official reception and representation expenses (not to exceed \$5,000); and during the current fiscal year the Revolving Fund, Corps of Engineers, shall be available for purchase (not to exceed 100 for replacement only) and hire of passenger motor vehicles.

GENERAL PROVISIONS

CORPS OF ENGINEERS—CIVIL

SEC. 101. Agreements proposed for execution by the Assistant Secretary of the Army for Civil Works or the United States Army Corps of Engineers after the date of the enactment of this Act pursuant to section 4 of the Rivers and Harbor Act of 1915, Public Law 64-291; section 11 of the River and Harbor Act of 1925, Public Law 68-585; the Civil Functions Appropriations Act, 1936, Public Law 75-208; section 215 of the Flood Control Act of 1968, as amended, Public Law 90-483; sections 104, 203, and 204 of the Water Resources Development Act of 1986, as amended, Public Law 99-662; section 206 of the Water Resources Development Act of 1992, as amended, Public Law 102-580; section 211 of the Water Resources Development Act of 1996, Public Law 104-303; and any other specific project authority, shall be limited to credits and reimbursements per project not to exceed \$10,000,000 in each fiscal year, and total credits and reimbursements for all applicable projects not to exceed \$50,000,000 in each fiscal year.

SEC. 102. None of the funds appropriated in this or any other Act may be used by the U.S. Army Corps of Engineers to support activities, including reconnaissance and feasibility studies, and planning, engineering and design, related to the Chicago Harbor Visitors Center.

SEC. 103. ST. GEORGES BRIDGE, DELAWARE. None of the funds made available in this Act may be used to carry out any activity relating to closure or removal of the St. Georges Bridge across the Intracoastal Waterway, Delaware River to Chesapeake Bay, Delaware and Maryland, including a hearing or any other activity relating to preparation of an environmental impact statement concerning the closure or removal.

SEC. 104. Section 595(h)(1) of Public Law 106-53 is amended by striking “\$25,000,000” and inserting in lieu thereof “\$100,000,000”.

SEC. 105. ST. PAUL ISLAND HARBOR, ST. PAUL, ALASKA TECHNICAL CORRECTIONS. Section 101(b)(3) of Public Law 104-303 (the Water Resources Development Act of 1996), (110 Stat. 3667) is amended by—

(1) striking “\$18,981,000” and inserting in lieu thereof “\$52,300,000”; and

(2) striking “\$12,239,000” and inserting in lieu thereof “\$45,558,000”.

SEC. 106. ABIQUIU DAM, NEW MEXICO. Section 1112 of Public Law 99-662 (the Water Resources Development Act of 1986), (100 Stat. 4232) is amended by striking “\$2,700,000” and inserting in lieu thereof “\$10,000,000”.

SEC. 107. The project for flood control, Las Vegas Wash and Tributaries (Flamingo and Tropicana Washes), Nevada, authorized by section 101(13) of Public Law 102-580 is modified to include as a part of the project channel crossings that are necessary for those existing and proposed highways and roads shown on the Clark County Comprehensive Plan Transportation Element, approved by the Clark County Board of County Commissioners on October 1, 1996. The performance of work required for construction of such channel crossings and the costs incurred in performing such work shall be considered part of the non-Federal sponsor's responsibility to provide lands, easements, and rights-of-way, and to perform relocations for the project. Costs incurred in performing such work may not exceed \$16,000,000.

SEC. 108. ATLANTIC INTRACOASTAL WATERWAY BRIDGE REPLACEMENT AT GREAT BRIDGE, CHESAPEAKE, VIRGINIA. The project for replacement of the bridge at Great Bridge, Chesapeake, Virginia, authorized by Section 339(h) of Public Law 104-59 is modified to authorize the Secretary to construct the project at an estimated cost of \$46,000,000.

SEC. 109. None of the funds appropriated in this Act, or any other Act, shall be used to study or implement any plans privatizing, divesting or transferring of any Civil Works missions, functions, or responsibilities for the U.S. Army Corps of Engineers to other government agencies without specific direction in a subsequent Act of Congress.

SEC. 110. The project for flood control for Terminus Dam, Kaweah River, California, authorized by Section 101(b)(5) of the Water Resources Development Act of 1996, is modified to authorize the Secretary of the Army, acting through the Chief of Engineers, to construct the project at a total cost of \$50,000,000, with an estimated Federal share of \$28,600,000 and an estimated non-Federal share of \$21,400,000.

SEC. 111. The project for flood control, Little Calumet River Basin (Cady Marsh Ditch), Indiana, authorized by section 401(a) of Public Law 99-662 is modified to authorize the Secretary of the Army, acting through the Chief of Engineers, to construct the project at a total cost of \$23,146,000, with an estimated Federal cost of \$17,359,000 and an estimated non-Federal cost of \$5,787,000.

SEC. 112. The non-Federal interest shall receive credit toward the non-Federal share of the cost of the feasibility study for work

performed prior to the date that the Secretary of the Army, acting through the Chief of Engineers, enters into the feasibility cost-sharing agreement with the non-Federal sponsor for the Indiana Harbor Environmental Dredging, Indiana, feasibility study. The Secretary shall provide credit for work only if the Secretary determines such work integral to the feasibility study.

SEC. 113. In satisfaction of any normal requirement for mitigation identified by the pending Environmental Impact Study for the deepening of the Brownsville Navigation Channel, Texas, the Secretary of the Army, acting through the Chief of Engineers, shall provide credit to the Brownsville Navigation District for work performed before the completion of the Environmental Impact Study to restore the wetlands at Bahia Grande, Lower Laguna Madre, and Vadia Ancha. Such credit shall be at a ratio determined by the Secretary, considering the environmental value of the wetlands impacted by the project and the environmental value of the restored wetlands. The Secretary shall provide credit for work only if the Secretary determines such work integral to the project.

SEC. 114. The Secretary of the Army, acting through the Chief of Engineers, shall carry out the project for inland navigation, Chickamauga Lock and Dam, Tennessee, substantially in accordance with the plans, and subject to the conditions, described in the report of the Chief of Engineers, dated May 30, 2002, except that the Secretary shall construct the project in accordance with the plan that includes a 110-foot by 600-foot replacement lock at a total cost of \$267,167,000. The costs of such construction shall be paid one-half from amounts appropriated from the general fund of the Treasury and one-half from amounts appropriated from the Inland Waterways Trust Fund.

SEC. 115. The Secretary of the Army, acting through the Chief of Engineers, shall conduct a study for the James River, Greene County, Missouri, project for flood damage reduction, Greene County, Missouri, and, if the Secretary determines that such project is feasible, may carry out the project under section 205 of the Flood Control Act of 1948 (33 U.S.C. 701s).

SEC. 116. Section 101(a)(21), "Amite River and Tributaries, Louisiana," of the Water Resources Development Act of 1999 is amended in subsection (a)(21) by striking "\$112,900,000" and inserting "\$150,257,000", and by striking "\$39,500,000" and inserting "\$52,589,950".

SEC. 117. None of the funds appropriated in this or any other Act may be used by the U.S. Army Corps of Engineers to support activities related to the proposed Ridge Landfill in Tuscarawas County, Ohio.

SEC. 118. Section 101(a)(19) of the Water Resources Development Act of 1999 is hereby amended to increase the total project cost to \$78,879,000 with an estimated Federal cost of \$51,271,000 and an estimated non-Federal cost of \$27,608,000 in accordance with the Corps of Engineers Post Authorization Change Report, dated January 2003, as amended by the Chief of Engineers.

SEC. 119. The Secretary of the Army, acting through the Chief of Engineers, is authorized to credit toward the non-Federal share of the cost of the Savannah Harbor Expansion, Georgia, project, authorized by section 101(b)(9) of the Water Resources Development Act of 1999, an amount equal to the Federal share of the costs in-

curring by the non-Federal interests subsequent to project authorization to the extent that the Secretary determines that such costs were necessary to ensure compliance with the conditions of the project authorization.

SEC. 120. The project for aquatic ecosystem restoration, Rose Bay, Volusia County, Florida, being carried out under section 206 of the Water Resources Development Act of 1996 (33 U.S.C. 2330), is modified to direct the Secretary of the Army, acting through the Chief of Engineers, to credit toward the non-Federal share of the cost of the project the costs incurred by the Florida Department of Transportation in constructing that portion of the United States Highway 1 bridge that the Secretary determines is required for the proper functioning of the project.

SEC. 121. The Secretary of the Army, acting through the Chief of Engineers, shall modify the shoreline management plan for Lake Cumberland, Kentucky, to allow for construction of a privately owned moorage facility at Woodson Bend Peninsula on the South Fork of the Cumberland River at Lake Cumberland.

SEC. 122. The non-Federal sponsor shall receive credit in an amount not to exceed \$10,000,000 toward their share of the cost of Des Moines Recreational River and Greenbelt, Iowa, projects for work performed by the sponsor, or others on behalf of the sponsor, including planning, design, and construction performed after October 1, 2002, provided the Secretary of the Army, acting through the Chief of Engineers, determines that such work is completed in accordance with U.S. Army Corps of Engineers standards and procedures and is integral to the Des Moines Recreational River and Greenbelt project.

SEC. 123. The project for flood damage reduction, Turkey Creek Basin, Kansas City, Missouri, and Kansas City, Kansas, authorized by Section 101(a)(24) of Public Law 106-53, is modified to authorize the Secretary of the Army, acting through the Chief of Engineers, to construct the project substantially in accordance with the plans and subject conditions, recommended in a final report of the Chief of Engineers if a favorable report of the Chief is completed by December 31, 2003, at a total project cost of \$73,380,000 with an estimated Federal cost of \$45,304,000 and an estimated non-Federal cost of \$28,076,000. The non-Federal interest shall receive credit toward the non-Federal share of project costs for construction work performed by the non-Federal interest before execution of the project cooperation agreement if the Secretary finds that the work performed by the non-Federal interest is integral to the project.

SEC. 124. The Secretary of the Army, acting through the Chief of Engineers, is authorized and directed to design and construct portions of the Long Lake Environmental Restoration Project, Indiana, that are located on non-Federally owned land in accordance with Section 206 of Public Law 104-303, as amended. Notwithstanding the provisions of Section 206, the Secretary of the Army, acting through the Chief of Engineers, is authorized and directed to design and construct all the components of the Long Lake, Indiana, environmental restoration project that are located on Federal land at full Federal expense as identified in the Long Lake, Indiana, Reconnaissance Report, dated October 2002, and as further modified by subsequent study. After completion of the project, the Secretary of the Army shall seek reimbursement from the Secretary of the Inte-

rior of an amount equal to the costs of the project allocated to benefits to the Indiana Dunes National Lakeshore.

SEC. 125. Section 514 of the Water Resources Development Act of 1999 is amended by striking “2000 and 2001” in subsection (g) and inserting “2003 and 2004”.

SEC. 126. Section 595 of the Water Resources Development Act of 1999 is amended by striking “Sec. 595. Rural Nevada and Montana.” and inserting in lieu thereof “Sec. 595. Rural Nevada, Montana, and Idaho.” and in (b) strike “and Montana.” and insert in lieu thereof “, Montana, and Idaho.” and in (c) strike “and Montana,” and insert in lieu thereof “, Montana, and Idaho,” and in (h)(1) strike “and” and insert after (h)(2) “and; (3) \$25,000,000 for Idaho;”.

SEC. 127. SOUTHERN AND EASTERN KENTUCKY. (a) PROJECT PURPOSES.—Section 531(b) of the Water Resources Development Act of 1996 (110 Stat. 3773) is amended by inserting before “and resource” the following: “, environmental restoration,”.

(b) DEFINITION.—Section 531(g) of such Act (110 Stat. 3774) is amended by inserting after “Lee,” the following: “Bath, Rowan,”.

(c) AUTHORIZATION OF APPROPRIATIONS.—Section 531(h) of such Act (110 Stat. 3774; 113 Stat. 348) is amended by striking “\$25,000,000” and inserting “\$40,000,000”.

SEC. 128. With respect to the pre-construction engineering and design for the environmental dredging project at Ashtabula River, Ohio, for which funds are made available under this heading, the non-Federal interest shall receive credit toward the non-Federal share of the cost of the pre-construction engineering and design work performed in-kind after the date of execution of the design agreement.

SEC. 129. Section 313(h)(2) of the Water Resources Development Act of 1992 is amended by striking “Armstrong, Beford, Blair, Cambria, Clearfield, Fayette, Franklin, Fulton, Huntingdon, Indiana, Juniata, Mifflin, Somerset, Snyder and Westmoreland Counties” and inserting “Allegheny, Armstrong, Bedford, Blair, Cambria, Clearfield, Fayette, Franklin, Fulton, Greene, Huntingdon, Indiana, Juniata, Mifflin, Somerset, Snyder, Washington, and Westmoreland Counties”.

SEC. 130. HERRING CREEK-TALL TIMBERS, MARYLAND. (a) IN GENERAL.—Using funds made available by this Act, the Secretary of the Army, acting through the Chief of Engineers, may provide immediate corrective maintenance to the project at Herring Creek-Tall Timbers, Maryland, at full Federal expense.

(b) INCLUSIONS.—The corrective maintenance described in subsection (a), and any other maintenance performed after the date of enactment of this Act with respect to the project described in that subsection, may include repair or replacement, as appropriate, of the foundation and structures adjacent and structurally integral to the project.

until expended for the sole purpose of making purchase power and wheeling expenditures.

OPERATION AND MAINTENANCE, SOUTHWESTERN POWER
ADMINISTRATION

For necessary expenses of operation and maintenance of power transmission facilities and of marketing electric power and energy, and for construction and acquisition of transmission lines, substations and appurtenant facilities, and for administrative expenses, including official reception and representation expenses in an amount not to exceed \$1,500 in carrying out the provisions of section 5 of the Flood Control Act of 1944 (16 U.S.C. 825s), as applied to the southwestern power area, \$27,378,000, to remain available until expended; in addition, notwithstanding the provisions of 31 U.S.C. 3302, not to exceed \$16,455,000 in reimbursements, to remain available until expended: Provided, Notwithstanding the provisions of 31 U.S.C. 3302, that up to \$1,512,000 collected by the Southwestern Power Administration pursuant to the Flood Control Act to recover purchase power and wheeling expenses shall be credited to this account as offsetting collections, to remain available until expended for the sole purpose of making purchase power and wheeling expenditures.

CONSTRUCTION, REHABILITATION, OPERATION AND MAINTENANCE,
WESTERN AREA POWER ADMINISTRATION

For carrying out the functions authorized by title III, section 302(a)(1)(E) of the Act of August 4, 1977 (42 U.S.C. 7152), and other related activities including conservation and renewable resources programs as authorized, including official reception and representation expenses in an amount not to exceed \$1,500, \$168,858,000, to remain available until expended, of which \$158,605,000 shall be derived from the Department of the Interior Reclamation Fund: Provided, That of the amount herein appropriated, \$6,100,000 is for deposit into the Utah Reclamation Mitigation and Conservation Account pursuant to title IV of the Reclamation Projects Authorization and Adjustment Act of 1992: Provided further, That up to \$156,124,000 collected by the Western Area Power Administration pursuant to the Flood Control Act of 1944 and the Reclamation Project Act of 1939 to recover purchase power and wheeling expenses shall be credited to this account as offsetting collections, to remain available until expended for the sole purpose of making purchase power and wheeling expenditures: Provided further, That, of the amounts appropriated in Public Law 107-66, not less than \$400,000 to be spent as described in House Report 107-258 under this heading shall be nonreimbursable: Provided further, That, of the amount appropriated in Public Law 107-66 for corridor review and environmental review required for the construction of a 230 kv transmission line between Belfield and Hettinger, not less than \$200,000 shall be provided for corridor review and environmental review for the construction of a high voltage line in Western North Dakota that would facilitate the upgrade of the Miles City DC tie.

FALCON AND AMISTAD OPERATING AND MAINTENANCE FUND

For operation, maintenance, and emergency costs for the hydro-electric facilities at the Falcon and Amistad Dams, \$2,734,000, to remain available until expended, and to be derived from the Falcon and Amistad Operating and Maintenance Fund of the Western Area Power Administration, as provided in section 423 of the Foreign Relations Authorization Act, Fiscal Years 1994 and 1995.

FEDERAL ENERGY REGULATORY COMMISSION

SALARIES AND EXPENSES

For necessary expenses of the Federal Energy Regulatory Commission to carry out the provisions of the Department of Energy Organization Act (42 U.S.C. 7101 et seq.), including services as authorized by 5 U.S.C. 3109, the hire of passenger motor vehicles, and official reception and representation expenses (not to exceed \$3,000), \$192,000,000, to remain available until expended: Provided, That notwithstanding any other provision of law, not to exceed \$192,000,000 of revenues from fees and annual charges, and other services and collections in fiscal year 2003 shall be retained and used for necessary expenses in this account, and shall remain available until expended: Provided further, That the sum herein appropriated from the General Fund shall be reduced as revenues are received during fiscal year 2003 so as to result in a final fiscal year 2003 appropriation from the General Fund estimated at not more than \$0.

GENERAL PROVISIONS

DEPARTMENT OF ENERGY

SEC. 301. (a) None of the funds appropriated by this Act may be used to award a management and operating contract, or a contract for environmental remediation or waste management in excess of \$100 million in annual funding at a current or former management and operating contract site or facility, or award a significant extension or expansion to an existing management and operating contract, or other contract covered by this section, unless such contract is awarded using competitive procedures or the Secretary of Energy grants, on a case-by-case basis, a waiver to allow for such a deviation. The Secretary may not delegate the authority to grant such a waiver.

(b) Within 30 days of formally notifying an incumbent contractor that the Secretary intends to grant such a waiver, the Secretary shall submit to the Subcommittees on Energy and Water Development of the Committees on Appropriations of the House of Representatives and the Senate a report notifying the Subcommittees of the waiver and setting forth, in specificity, the substantive reasons why the Secretary believes the requirement for competition should be waived for this particular award.

SEC. 302. None of the funds appropriated by this Act may be used to—

- (1) develop or implement a workforce restructuring plan that covers employees of the Department of Energy; or*

(2) provide enhanced severance payments or other benefits for employees of the Department of Energy, under section 3161 of the National Defense Authorization Act for Fiscal Year 1993 (Public Law 102-484; 42 U.S.C. 7274h).

SEC. 303. None of the funds appropriated by this Act may be used to augment the \$21,183,000 made available for obligation by this Act for severance payments and other benefits and community assistance grants under section 3161 of the National Defense Authorization Act for Fiscal Year 1993 (Public Law 102-484; 42 U.S.C. 7274h) unless the Department of Energy submits a re-programming request subject to approval by the appropriate Congressional committees.

SEC. 304. None of the funds appropriated by this Act may be used to prepare or initiate Requests For Proposals (RFPs) for a program if the program has not been funded by Congress.

(TRANSFERS OF UNEXPENDED BALANCES)

SEC. 305. The unexpended balances of prior appropriations provided for activities in this Act may be transferred to appropriation accounts for such activities established pursuant to this title. Balances so transferred may be merged with funds in the applicable established accounts and thereafter may be accounted for as one fund for the same time period as originally enacted.

SEC. 306. None of the funds in this or any other Act for the Administrator of the Bonneville Power Administration may be used to enter into any agreement to perform energy efficiency services outside the legally defined Bonneville service territory, with the exception of services provided internationally, including services provided on a reimbursable basis, unless the Administrator certifies in advance that such services are not available from private sector businesses.

SEC. 307. When the Department of Energy makes a user facility available to universities and other potential users, or seeks input from universities and other potential users regarding significant characteristics or equipment in a user facility or a proposed user facility, the Department shall ensure broad public notice of such availability or such need for input to universities and other potential users. When the Department of Energy considers the participation of a university or other potential user as a formal partner in the establishment or operation of a user facility, the Department shall employ full and open competition in selecting such a partner. For purposes of this section, the term "user facility" includes, but is not limited to: (1) a user facility as described in section 2203(a)(2) of the Energy Policy Act of 1992 (42 U.S.C. 13503(a)(2)); (2) a National Nuclear Security Administration Defense Programs Technology Deployment Center/User Facility; and (3) any other Departmental facility designated by the Department as a user facility.

SEC. 308. The Administrator of the National Nuclear Security Administration may authorize the plant manager of a covered nuclear weapons production plant to engage in research, development, and demonstration activities with respect to the engineering and manufacturing capabilities at such plant in order to maintain and enhance such capabilities at such plant: Provided, That of the amount allocated to a covered nuclear weapons production plant each fiscal year from amounts available to the Department of En-

ergy for such fiscal year for national security programs, not more than an amount equal to 2 percent of such amount may be used for these activities: Provided further, That for purposes of this section, the term "covered nuclear weapons production plant" means the following:

- (1) the Kansas City Plant, Kansas City, Missouri;
- (2) the Y-12 Plant, Oak Ridge, Tennessee;
- (3) the Pantex Plant, Amarillo, Texas; and
- (4) the Savannah River Plant, South Carolina.

SEC. 309. The Administrator of the National Nuclear Security Administration may authorize the manager of the Nevada Operations Office to engage in research, development, and demonstration activities with respect to the development, test, and evaluation capabilities necessary for operations and readiness of the Nevada Test Site: Provided, That of the amount allocated to the Nevada Operations Office each fiscal year from amounts available to the Department of Energy for such fiscal year for national security programs at the Nevada Test Site, not more than an amount equal to 2 percent of such amount may be used for these activities.

SEC. 310. Section 310 of the Energy and Water Development Appropriations Act, 2000 (Public Law 106-60), is hereby repealed.

SEC. 311. Funds appropriated by this or any other Act, or made available by the transfer of funds in this Act, for intelligence activities are deemed to be specifically authorized by the Congress for purposes of section 504 of the National Security Act of 1947 (50 U.S.C. 414) during fiscal year 2003 until the enactment of the Intelligence Authorization Act for fiscal year 2003.

SEC. 312. None of the funds in this Act may be used to dispose of transuranic waste in the Waste Isolation Pilot Plant which contains concentrations of plutonium in excess of 20 percent by weight for the aggregate of any material category on the date of enactment of this Act, or is generated after such date. For the purposes of this section, the material categories of transuranic waste at the Rocky Flats Environmental Technology Site include: (1) ash residues; (2) salt residues; (3) wet residues; (4) direct repackaging residues; and (5) scrub alloy as referenced in the "Final Environmental Impact Statement on Management of Certain Plutonium Residues and Scrub Alloy Stored at the Rocky Flats Environmental Technology Site".

SEC. 313. Funds appropriated in Public Law 107-066 for the Kachemak Bay submarine cable project may be available to reimburse the local sponsor for the federal share of the project costs assumed by the local sponsor prior to final passage of that Act.

SEC. 314. STAY AND REINSTATEMENT OF FERC LICENSE NO. 11393. (a) Upon the request of the licensee for FERC Project No. 11393, the Federal Energy Regulatory Commission shall issue an order staying the license.

(b) Upon the request of the licensee for FERC Project No. 11393, but not later than 6 years after the date that the Federal Energy Regulatory Commission receives written notice that construction of the Swan-Tyee transmission line is completed, the Federal Energy Regulatory Commission shall issue an order lifting the stay and make the effective date of the license the date on which the stay is lifted.

(c) Upon request of the licensee for FERC Project No. 11393 and notwithstanding the time period specified in section 13 of the Fed-

eral Power Act for the commencement of construction, the Commission shall, after reasonable notice and in accordance with the good faith, due diligence, and public interest requirements of that section, extend the time period during which licensee is required to commence the construction of the project for not more than one 2-year time period.

SEC. 315. (a) None of the funds made available under the accounts "non-defense environmental management", "uranium facilities maintenance and remediation", "defense environmental restoration and waste management", or "defense facilities closure projects" may be obligated at a Department of Energy site or laboratory, or in association with a site or laboratory, if the effect of such would result in the Department of Energy exceeding for that site or laboratory the comparable current-year level of funding, or the amount of the fiscal year 2003 budget request, whichever is greater.

(b) The limitation of subsection (a) will not apply to a site or laboratory after such time that the Department has entered into a site performance management plan for that site or laboratory consistent with the intent of the Department's environmental management acceleration and reform initiative.

SEC. 316. Notwithstanding any other provision of law, the National Nuclear Security Administration is prohibited from taking any actions adversely affecting employment at the Nevada Operations Office for a period of not less than 365 days, unless the Administrator seeks and is granted a waiver, in writing, from the House and Senate Committees on Appropriations.

SEC. 317. Notwithstanding the provisions of any other law, using funds appropriated in this title, the Secretary of Energy shall proceed with planning and analyses for external regulation of the Department's laboratories under the Office of Science as directed in the statement of managers accompanying this bill.

TITLE IV

INDEPENDENT AGENCIES

APPALACHIAN REGIONAL COMMISSION

For expenses necessary to carry out the programs authorized by the Appalachian Regional Development Act of 1965, as amended, and, for necessary expenses for the Federal Co-Chairman and the alternate on the Appalachian Regional Commission, for payment of the Federal share of the administrative expenses of the Commission, including services as authorized by 5 U.S.C. 3109, and hire of passenger motor vehicles, \$71,290,000, to remain available until expended.

DEFENSE NUCLEAR FACILITIES SAFETY BOARD

SALARIES AND EXPENSES

For necessary expenses of the Defense Nuclear Facilities Safety Board in carrying out activities authorized by the Atomic Energy Act of 1954, as amended by Public Law 100-456, section 1441, \$19,000,000, to remain available until expended.

TITLE V

GENERAL PROVISIONS

SEC. 501. *None of the funds appropriated by this Act may be used in any way, directly or indirectly, to influence congressional action on any legislation or appropriation matters pending before Congress, other than to communicate to Members of Congress as described in 18 U.S.C. 1913.*

SEC. 502. (a) *PURCHASE OF AMERICAN-MADE EQUIPMENT AND PRODUCTS.—It is the sense of the Congress that, to the greatest extent practicable, all equipment and products purchased with funds made available in this Act should be American-made.*

(b) *NOTICE REQUIREMENT.—In providing financial assistance to, or entering into any contract with, any entity using funds made available in this Act, the head of each Federal agency, to the greatest extent practicable, shall provide to such entity a notice describing the statement made in subsection (a) by the Congress.*

(c) *PROHIBITION OF CONTRACTS WITH PERSONS FALSELY LABELING PRODUCTS AS MADE IN AMERICA.—If it has been finally determined by a court or Federal agency that any person intentionally affixed a label bearing a “Made in America” inscription, or any inscription with the same meaning, to any product sold in or shipped to the United States that is not made in the United States, the person shall be ineligible to receive any contract or subcontract made with funds made available in this Act, pursuant to the debarment, suspension, and ineligibility procedures described in sections 9.400 through 9.409 of title 48, Code of Federal Regulations.*

SEC. 503. *None of the funds made available in this Act may be transferred to any department, agency, or instrumentality of the United States Government, except pursuant to a transfer made by, or transfer authority provided in, this Act or any other appropriation Act.*

SEC. 504. *Section 309 of Title III—Denali Commission of Division C—Other Matters of Public Law 105–277, as amended, is further amended by striking “2003” and inserting in lieu thereof “thereafter”.*

SEC. 505. *EXTENSION OF PROHIBITION OF OIL AND GAS DRILLING IN THE GREAT LAKES. Section 503 of the Energy and Water Development Appropriations Act, 2002 (115 Stat. 512), is amended by striking “2002 and 2003” and inserting “2002 through 2005”.*

SEC. 506. *CLARIFICATION OF INDEMNIFICATION TO PROMOTE ECONOMIC DEVELOPMENT. Title 42 U.S.C. § 7274q is amended in subsection (b)(2), by adding the following new subsection:*

“(D) Any successor, assignee, transferee, lender or lessee of a person or entity described in subparagraphs (A) through (C).”.

SEC. 507. *The Director of the Office of Management and Budget shall transmit to the Congress by April 1, 2003, a cross-cut budget displaying, by fiscal year, all CALFED Bay-Delta Program related expenditures by the Federal government, actual and projected, for fiscal years 1996 through 2004.*

This division may be cited as the “Energy and Water Development Appropriations Act, 2003”.

TITLE VI—OFFSETS

SEC. 601. (a) *ACROSS-THE-BOARD RESCISSIONS.*—*There is hereby rescinded an amount equal to 0.65 percent of—*

(1) the budget authority provided (or obligation limitation imposed) for fiscal year 2003 for any discretionary account in divisions A through K of this joint resolution;

(2) the budget authority provided in any advance appropriation for fiscal year 2003 for any discretionary account in any prior fiscal year appropriations Act; and

(3) the contract authority provided in fiscal year 2003 for any program subject to limitation contained in this joint resolution.

(b) *PROPORTIONATE APPLICATION.*—*Any rescission made by subsection (a) shall be applied proportionately—*

(1) to each discretionary account and each item of budget authority described in subsection (a); and

(2) within each such account and item, to each program, project, and activity (with programs, projects, and activities as delineated in the appropriation Act or accompanying reports for the relevant fiscal year covering such account or item, or for accounts and items not included in appropriation Acts, as delineated in the most recently submitted President's budget).

(c) *The rescission in subsection (a) shall not apply to budget authority appropriated or otherwise made available by this joint resolution in the following amounts in the following activities or accounts:*

\$4,696,000,000 provided for the Special Supplemental Nutrition Program for Women, Infants, and Children (WIC) in the Department of Agriculture in division A;

\$6,667,533,000 provided for the Head Start Act in the Department of Education in division G;

\$23,889,304,000 provided for medical care in the Department of Veterans Affairs in division K; and

\$3,836,000,000 provided for the Shuttle program in the National Aeronautics and Space Administration in division K.

TITLE VII—BONNEVILLE POWER ADMINISTRATION
BORROWING AUTHORITY

SEC. 701. *For the purposes of providing funds to assist in financing the construction, acquisition, and replacement of the transmission system of the Bonneville Power Administration and to implement the authority of the Administrator under the Pacific Northwest Electric Power Planning and Conservation Act (16 U.S.C. 839 et seq.), an additional \$700,000,000 in borrowing authority is made available under the Federal Columbia River Transmission System Act (16 U.S.C. 838 et seq.), to remain outstanding at any time: Provided, That the Bonneville Power Administration shall not use more than \$531,000,000 of its permanent borrowing authority in fiscal year 2003.*

SEC. 702. *Notwithstanding Rule 3 of the Budget Scorekeeping Guidelines set forth in the joint explanatory statement of the committee of conference accompanying Conference Report 105–217, the provisions of this title that would have been estimated by the Office of Management and Budget as changing direct spending or receipts*

under section 252 of the Balanced Budget and Emergency Deficit Control Act of 1985 were they included in an Act other than an appropriations Act shall be treated as direct spending or receipts legislation, as appropriate, under section 252 of the Balanced Budget and Emergency Deficit Control Act of 1985, and by the Chairmen of the House and Senate Budget Committees, as appropriate, under the Congressional Budget Act of 1974.

DIVISION O

PRICE-ANDERSON ACT AMENDMENTS

SEC. 101. EXTENSION OF INDEMNIFICATION AUTHORITY.

INDEMNIFICATION OF NUCLEAR REGULATORY COMMISSION LICENSEES.—Section 170 c. of the Atomic Energy Act of 1954 (42 U.S.C. 2210(c)) is amended by striking “August 1, 2002” each place it appears and inserting “December 31, 2003”.

DIVISION P

UNITED STATES-CHINA ECONOMIC AND SECURITY REVIEW COMMISSION

SECTION 1. SHORT TITLE.—This division may be cited as the “United States-China Economic and Security Review Commission”.

SEC. 2. (a) APPROPRIATIONS.—There are appropriated, out of any funds in the Treasury not otherwise appropriated, \$1,800,000, to remain available until expended, to the United States-China Economic and Security Review Commission.

(b) NAME CHANGE.—

(1) IN GENERAL.—Section 1238 of the Floyd D. Spence National Defense Authorization Act of 2001 (22 U.S.C. 7002) is amended—

*(A) in the section heading by inserting “**ECONOMIC AND**” before “**SECURITY**”;*

(B) in subsection (a)—

(i) in paragraph (1), by inserting “Economic and” before “Security”; and

(ii) in paragraph (2), by inserting “Economic and” before “Security”;

(C) in subsection (b)—

*(i) in the subsection heading, by inserting “**ECONOMIC AND**” before “**SECURITY**”;*

(ii) in paragraph (1), by inserting “Economic and” before “Security”;

(iii) in paragraph (3)—

(I) in the matter preceding subparagraph (A), by inserting “Economic and” before “Security”; and

(II) in subparagraph (H), by inserting “Economic and” before “Security”; and

(iv) in paragraph (4), by inserting “Economic and” before “Security” each place it appears; and

(D) in subsection (e)—

(i) in paragraph (1), by inserting “Economic and” before “Security”;

(ii) in paragraph (2), by inserting “Economic and” before “Security”;

Budget estimates of new (obligational) authority, fiscal year	
2003	+133,248
House bill, fiscal year 2003	— 5,000
Senate bill, fiscal year 2003	—

DIVISION D

ENERGY AND WATER DEVELOPMENT APPROPRIATIONS, 2003

The language and allocations set forth in House Report 107–681 and the Senate explanatory statement as delineated in the Congressional Record of January 15, 2003, pages S492 through S546, should be complied with unless specifically addressed to the contrary in the conference report and statement of the managers. Such language should be considered approved by the committee of conference. The statement of the managers, while repeating some report language for emphasis, does not intend to negate the language referred to above unless expressly provided herein. In cases where both the House report and Senate explanatory statement address a particular issue not specifically addressed in the conference report or joint statement of managers, the conferees have determined that the House report and Senate explanatory statement are not inconsistent and are to be interpreted accordingly. In cases in which the House or Senate have directed the submission of a report, such report is to be submitted to both House and Senate Committees on Appropriations.

TITLE I

DEPARTMENT OF DEFENSE—CIVIL

DEPARTMENT OF THE ARMY

CORPS OF ENGINEERS—CIVIL

The summary tables at the end of this title set forth the conference agreement with respect to the individual appropriations, programs, and activities of the Corps of Engineers. Additional items of the conference agreement are discussed below.

The conferees remain concerned about the huge and increasing backlog of infrastructure development, maintenance, and repair over which the Corps of Engineers has jurisdiction. The Administration's proposed fiscal year 2003 budget would have caused the backlog of unconstructed projects to increase from \$40,000,000,000 to \$44,000,000,000, and ignores an accelerating critical maintenance backlog which would increase from \$702,000,000 to \$884,000,000. This maintenance backlog will soon become entirely unmanageable under the weight of an aging and crumbling inventory. Proposing no new studies and only one new construction start, under funding ongoing projects, and providing minimal operation and maintenance funding for completed projects leads the conferees to believe that the budget request may have been influenced by very narrow interest groups rather than the needs of the country. In the face of such an irresponsible position, the Congress has no option but to step forward in support of these vital projects.

The conferees are concerned that Corps of Engineers technical and planning capabilities have diminished over the past decade.

This diminished capability has been evident in recent studies, such as the Upper Mississippi and Illinois Waterway Navigation Study and the Delaware River Deepening project. The conferees urge the Corps of Engineers to review ways in which it can improve its capability, including concentrating its technical and planning expertise in regional centers. The Corps should report back to the House and Senate Appropriations Committees within one year on its findings.

GENERAL INVESTIGATIONS

The conference agreement appropriates \$135,019,000 for General Investigations instead of \$143,680,000 as proposed by the House and \$148,304,000 as proposed by the Senate.

The conference agreement includes \$1,000,000 for the Napa River Salt Marsh Restoration project in California, \$900,000 to complete the feasibility study, and \$100,000 to initiate preconstruction engineering and design.

The conference agreement does not include funds for the Port of Stockton, California, study proposed by the House. Funds for this work are included in the amount provided for the San Francisco Bay to Stockton, California, project in the Construction, General, account.

The conference agreement includes \$3,073,000 for the Corps of Engineers to complete the feasibility study and initiate preconstruction engineering and design for the Sacramento and San Joaquin Comprehensive Basin study in California.

The conference agreement does not include funds in this account for the Treatment of Dredged Material from Long Island Sound, Connecticut, project. Funds for the project are included in the Operation and Maintenance, General, account.

The conference agreement includes \$500,000 for the Corps of Engineers to perform a General Reevaluation Report for the Federal navigation project at St. Petersburg Harbor, Florida.

The conferees have provided \$450,000 for the Chesapeake Bay Shoreline Erosion, Maryland, Virginia, and Pennsylvania, study, including \$100,000 to initiate the shoreline erosion portion of the feasibility study.

The conference agreement includes \$1,500,000 for the Great Lakes Navigation System study. The conferees have included language in the bill allowing the Secretary, in pursuing this study, to partner with, and accept contributions from, the St. Lawrence Seaway Development Corporation and agents of the government of Canada. The conferees understand the need for an evaluation of the existing physical structures of the St. Lawrence Seaway to ensure the future viability of the system. However, the conferees are concerned about the scope of the ongoing study, primarily with respect to the environmental impact on the Seaway system as a whole and the St. Lawrence River in particular. Any significant disruption of the delicate balance of the St. Lawrence/Great Lakes ecosystem could have a detrimental impact on critical habitats and adversely affect the region's critical recreation, commercial and tourism industries. The conferees direct the Corps of Engineers to take into consideration the recreational, commercial, environmental and tourism impacts of any changes to the Great Lakes Ecosystem,

including impacts to the St. Lawrence Seaway as the Corps conducts its Great Lakes Navigation System study.

The conference agreement includes \$150,000 for the Corps of Engineers to continue shoreline monitoring and undertake other preconstruction engineering and design activities for the Manteo (Shallowbag) Bay, North Carolina, project. The conferees are aware that there are significant issues that remain to be resolved before this project can proceed to construction.

The conference agreement includes \$800,000 for the Mahoning River Environmental Dredging, Ohio and Pennsylvania, study, including \$100,000 to study the need for environmental dredging of the Mahoning River within the State of Pennsylvania.

The conferees have provided \$200,000 for continuation of the riverfront project in Cincinnati, Ohio. The conferees understand that the City has accelerated the planning and design of the project using non-Federal funds. It is the sense of the conference that these funds should be counted toward any non-Federal cost-sharing requirement. Therefore, the funding provided is to be used for assistance with the development of design and environmental compliance documentation.

The conferees have provided \$650,000 for the Walla Walla River Watershed, Oregon and Washington, study, including \$100,000 for the Corps of Engineers to work with the Walla Walla Watershed Alliance to investigate restoration of riparian habitat and river flow improvements in the basin.

The conference agreement includes \$1,800,000 for the Upper Trinity River Basin, Texas, study, including \$300,000 for the Dallas Floodway portion of the project and funds to continue the Trinity Visions project.

The conference agreement includes \$4,500,000 for the Coastal Field Data Collection Program, including \$1,000,000 for the Southern California Beach Processes study, and \$1,000,000 for hurricane evaluation studies in the State of Hawaii and U.S. Territories.

The conferees have provided \$8,000,000 for the Flood Plain Management Services program. Within the funds provided, the conferees expect the Corps of Engineers to carry out the work described in the House Report and Senate Explanatory Statement, including \$1,000,000 to continue the foundational geographic information system for flood plain management in East Baton Rouge Parish in Louisiana.

The conference agreement includes \$5,250,000 for Other Coordination Programs. Within the amount provided, the conferees direct the Corps of Engineers to undertake the activities described in the Senate Explanatory Statement.

The conference agreement includes \$6,500,000 for the Planning Assistance to States program. Within the funds provided, the conferees expect the Corps of Engineers to undertake the activities described in the House Report and Senate Explanatory Statement except for the work described in the House Report for Gwinnett County, Georgia, and the work in Alaska described in the Senate Explanatory Statement, which has been funded under the Tribal Partnership Program authorized by section 203 of the Water Resources Development Act of 2000. In addition, the conference agree-

ment includes \$300,000 for the statewide watershed management assessment for the State of Alabama.

Within the amount provided for Research and Development, \$2,000,000 is provided for innovative technology demonstrations for urban flooding and channel restoration. The conferees encourage the Corps of Engineers to cooperate with the Urban Water Research Program of the Desert Research Institute of Nevada in carrying out these demonstrations. In addition, \$500,000 is provided for submerged aquatic vegetation research as described in the Senate Explanatory Statement.

The conferees have agreed to include language in the bill proposed by the House related to the Southwest Valley Flood Damage Reduction study in New Mexico.

The conference agreement deletes language proposed by the House regarding the water resources needs of the central Gulf Coast area.

CONSTRUCTION, GENERAL

The conference agreement appropriates \$1,756,012,000 for Construction, General instead of \$1,831,030,000 as proposed by the House and \$1,636,602,000 as proposed by the Senate.

In the process of arriving at the agreed-upon distribution of funding, the conferees were aware of, and took into consideration, the effects on the capability of the Corps of Engineers to execute its fiscal year 2003 program of having functioned for nearly half the year under a series of continuing resolutions. Recognition of the restrictions associated with this mode of operation, and their inevitable impact, compelled the conferees to make several changes from the program that would have been enacted earlier.

The conference agreement includes \$19,000,000 for the Corps of Engineers to continue construction of the Rio Salado project in Arizona.

The conference agreement includes \$2,000,000 for the Sacramento Area, California, project for the Corps of Engineers to carry out the activities described in the House Report.

The conference agreement includes \$1,800,000 for the San Francisco Bay to Stockton, California, project, including funds for continuation of the General Reevaluation Reports on the Avon Turning Basin and the minimal deepening of San Francisco Bay to the Port of Stockton.

The conference agreement includes \$2,000,000 for the Tule River, California, Success Reservoir enlargement project. The conferees direct the Corps of Engineers to include the additional rock protection required on the approaches to the State Route 190 bridge as a project cost.

The conferees have included \$2,000,000 for the Broward County, Florida, project, including \$300,000 for the Corps of Engineers to prepare a General Reevaluation Report for implementation of Segment I of the project.

The amount provided for the Jacksonville Harbor, Florida, project includes \$500,000 for the Corps of Engineers to complete plans and specifications for the proposed extension of the channel and initiate a General Reevaluation Report regarding further improvements.

The conference agreement includes \$2,500,000 for the Palm Beach County, Florida, project for activities described in the House Report.

The conferees have provided \$3,000,000 for a portion of the Federal share of the costs of the Estero and Gasparilla segments of the Lee County, Florida, shore protection project. The conferees are aware that section 312 of the Water Resources Development Act of 1999 directed the Secretary to carry out the Captiva Island segment of the Lee County project in accordance with section 206 of the Water Resources Development Act of 1992; and also that section 309 of the Water Resources Development Act of 2000 authorized the Secretary to carry out the Estero and Gasparilla segments of the same project in accordance with section 206 of the Water Resources Development Act of 1992. The conferees urge the Secretary of the Army to enter into the required project cooperation agreements for the Captiva, Estero, and Gasparilla segments of the Lee County, Florida, project within six months of enactment of this Act into law and to include funds for these segments in future annual budget requests to Congress.

None of the funds provided for the Olmsted Locks and Dam project are to be used to reimburse the Claims and Judgment Fund.

The conferees continue to recognize the vital importance of the Inner Harbor Navigation Canal Lock, Louisiana, project and direct the Corps of Engineers to take every practicable action to ensure that construction proceeds expeditiously and that project benefits are delivered with dispatch.

The conferees have provided \$750,000 for the Mississippi River Gulf Outlet, Louisiana, project for the Corps of Engineers to continue the reevaluation study for the project.

The conference agreement includes \$200,000 for the Genessee County Environmental Infrastructure project in Michigan for work on the rain gauge system and the Kearsley Creek interceptor.

The conferees reiterate their support for the wastewater infrastructure needs of the Mille Lacs Band of Ojibwe and the Garrison-Kathio-West Mille Lacs Lake Sanitary District through continued construction of the Mille Lacs Regional Wastewater System connected to the regional wastewater treatment plant on the Mille Lacs Indian Reservation, as established in the Treaty of 1855, 10 Stat. 1165.

The conference agreement includes \$8,000,000 for the Mississippi Environmental Infrastructure project. The conferees expect the Corps of Engineers to use the funds to address the most critical water resources needs within the State of Mississippi.

The conferees have provided \$1,000,000 for the Rural Montana project. Within the funds provided, the Corps of Engineers should give consideration to Grant Creek, Missoula County, the cities of Belgrade, Helena, and the City of Conrad as described in the House Report.

The conference agreement includes \$10,000,000 to continue the Rural Nevada project. Within the funds provided, the Corps of Engineers is directed to give consideration to projects at Boulder City, Lyon County (Carson River Regional Water System), Gerlach, In-

cline Village, Round Hill, Mesquite, Moapa, Spanish Springs, Battle Mountain, Virgin Valley, Lawton-Verdi, and Esmeralda County.

The conferees are aware that the Corps of Engineers has made significant progress during calendar year 2002 to reorganize the Acequias Irrigation System construction project in New Mexico. The conferees are concerned, however, that the State of New Mexico's Interstate Stream Commission is facing funding shortfalls and is having difficulty garnering the needed resources as the non-Federal sponsor of the project. In addition, the conferees are also aware that there are delays in both the community ditch in northwest New Mexico, as well as in the Cuchillo project. The conferees continue to support this project and are hopeful that the outstanding issues will soon be resolved.

The additional funds provided for the Fire Island Inlet to Montauk Point, New York, project are to be used to carry out the activities described in the House Report.

The conference agreement includes \$8,000,000 for the South Central Pennsylvania Environmental Improvement Program. The funds are to be divided equally for work within the Corps of Engineers Baltimore and Pittsburgh Districts.

The conferees have provided \$8,500,000 for the Cheyenne River Sioux Tribe, Lower Brule Sioux, South Dakota, project. Within the funds provided, \$1,000,000 shall be provided for administrative expenses. The Corps of Engineers is to distribute the remaining funds as directed by Title VI of the Water Resources Development Act of 1999 to the State of South Dakota, the Cheyenne River Sioux Tribe, and the Lower Brule Sioux Tribe.

The conference agreement includes \$2,000,000 for the Norfolk Harbor and Channels, Virginia, project, including funds to initiate deepening of the outbound channel.

The conference agreement includes \$85,000,000 for the Columbia River Fish Mitigation program in Washington, Oregon, and Idaho. Within the funds provided, \$300,000 is for a reconnaissance level investigation of Columbia River flood control operations for the Corps of Engineers to determine what changes, if any, would benefit endangered species, particularly salmon. Evaluation beyond the reconnaissance phase is subject to agency review and congressional notification.

The conferees direct the Corps of Engineers to undertake the projects listed in the House report and Senate explanatory statement and any additional projects described below for the various continuing authorities programs. The recommended funding levels for these programs are as follows: Section 206—\$20,000,000; Section 204—\$1,500,000; Section 14—\$10,000,000; Section 205—\$45,000,000; Section 111—\$2,000,000; Section 107—\$11,000,000; Section 1135—\$23,000,000; Section 103—\$5,000,000; and Section 208—\$1,000,000. The conferees are aware that there are funding requirements for ongoing continuing authorities projects that may not be accommodated within the funds provided for each program. It is not the intent of the conferees that ongoing projects be terminated. If additional funds are needed during the year to keep ongoing work in any program on schedule, the conferees urge the Corps of Engineers to reprogram funds into the program.

Under the Section 205 program, the conference agreement includes \$750,000 to initiate detailed plans and specifications for the Jackson Brook Watershed, Morris County, New Jersey, project. The conference agreement does not include funds for the Wind Lake, Wisconsin, project described in the House Report. In addition, \$500,000 is provided for the Corps of Engineers to initiate work on the flood damage reduction project on the James River in Greene County, Missouri.

Under the Section 14 program, \$200,000 is provided for the Kenosha Harbor, Wisconsin, retaining wall project.

Under the Section 107 program, the conference agreement includes \$500,000 to complete plans and specifications, negotiate the project cooperation agreement, and initiate construction of the Russellville Slackwater Harbor project in Arkansas. In addition, the conferees urge the Corps of Engineers to take whatever steps necessary within the funds available under Section 107 to begin work on the small boat harbor at Tatitlik, Alaska.

Under the Section 206 program, the conference agreement includes \$250,000 for the Arroyo Mocho, California, project for preliminary restoration planning followed by planning, design, and implementation studies; \$700,000 to complete the ecosystem restoration report, initiate and complete plans and specifications, and initiate construction of the Efroymsen Restoration Project, Newton County, Indiana; and \$180,000 for the Long Lake, Indiana, project.

The conference agreement includes \$4,000,000 for the Aquatic Plant Control Program. Within the funds provided, the conferees expect the Corps of Engineers to carry out the activities described in the House Report and Senate explanatory statement.

The conferees have included language in the bill earmarking funds for the following projects in the amounts specified: San Timoteo Creek (Santa Ana River Mainstem), California, \$7,000,000; Southern and Eastern Kentucky, \$3,000,000; Clover Fork, City of Cumberland, Town of Martin, Pike County (including Levisa and Tug Fork Tributaries), Bell County, Harlan County in accordance with the Draft Detailed Report dated January 2002, Floyd County, Martin County, and Johnson County, Kentucky elements of the Levisa and Tug Forks of the Big Sandy River and Upper Cumberland River, \$26,100,000; Grundy, Buchanan, and Dickenson County, Virginia, elements of the Levisa and Tug Forks of the Big Sandy River and Upper Cumberland River, \$13,400,000; and Lower Mingo County, Upper Mingo County, Wayne County, McDowell County, West Virginia elements of the Levisa and Tug Forks of the Big Sandy River and Upper Cumberland River, \$5,500,000. The conference agreement also includes language proposed by the Senate directing the Corps of Engineers to continue the Dickenson County, Virginia, Detailed Project Report as defined by Plan 4 of the Huntington District Engineer's Draft Supplement to the Section 202 General Plan for Flood Damage Reduction, dated April 1997.

For the Pike County, Kentucky, element of the Levisa and Tug Forks of the Big Sandy River and Upper Cumberland River project, the conferees direct the Secretary of the Army to amend the Project Cooperation Agreement and implement the project described in the

Pike County, Kentucky, Tug Fork Tributaries Detailed Project Report Supplement, dated January 2002.

The conference agreement deletes language proposed by the Senate regarding dispersal barriers in the Chicago Ship and Sanitary Canal in Illinois. Funding for this work is included in the amount appropriated for Construction, General.

The conference agreement includes language proposed by the House regarding the Bois Brule Drainage and Levee District project in Missouri, the Dallas Floodway Extension project in Texas, the Bowie County Levee project in Texas, and the Los Angeles Harbor project in California.

The conference agreement includes language proposed by the Senate directing the Corps of Engineers to continue construction of the Hawaii Water Management Project. The conferees have provided \$1,000,000 for the project.

The conference agreement includes language proposed by the Senate directing the Corps of Engineers to continue construction of the Kaunapali Harbor, Hawaii, project. The conferees have provided \$1,000,000 for the project.

The conference agreement includes language proposed by the Senate directing the Corps of Engineers to continue construction of the Waterbury Dam, Vermont, project. The conference agreement includes \$2,000,000 for the project within the Dam Safety and Seepage/Stability Correction Program.

The conference agreement includes language proposed by the Senate regarding the Seward Harbor, Alaska, project; the Wrangell Harbor, Alaska, project; the Galena Bank Stabilization, Alaska, project; and the Devils Lake, North Dakota, project.

FLOOD CONTROL, MISSISSIPPI RIVER AND TRIBUTARIES, ARKANSAS, ILLINOIS, KENTUCKY, LOUISIANA, MISSISSIPPI, MISSOURI, AND TENNESSEE

The conference agreement appropriates \$344,574,000 for Flood Control, Mississippi River and Tributaries, instead of \$342,071,000 as proposed by the House and \$346,437,000 as proposed by the Senate.

The conference agreement includes \$37,790,000 for the Channel Improvement program. The amount provided includes \$700,000 for the Caruthersville-Linwood, Missouri, dike; \$200,000 for the Donaldson Point, Missouri, dike; and \$200,000 for the Island 7 & 8, Missouri, dike.

The conferees have provided \$47,885,000 for continued construction of the Mississippi River levees feature of the Mississippi River and Tributaries project, including \$2,300,000 to construct the Nash Road, Missouri, relief wells; \$2,325,000 for the Birds Point-New Madrid, Missouri, levee closure and box culvert; \$400,000 for wave wash protection along a portion of the main line levee near Tiptonville, Tennessee; and \$500,000 to continue engineering and design of the Lower Mississippi River Museum and Interpretive Site.

The conference agreement includes \$3,100,000 for the Corps of Engineers to continue construction of the St. Francis Basin project in Arkansas and Missouri, including \$100,000 for constructing

channel stabilization measures in Stoddard and Dunklin Counties in Missouri.

The conferees have provided \$20,000,000 for the Yazoo Basin, Mississippi, Delta Headwaters Project. The conferees agree that the work performed to date on this program by the Corps of Engineers and the Natural Resources Conservation Service has shown positive results in reduction of flood damages, decreased erosion and sedimentation, and improvements to the environment. Therefore, the conferees have agreed to rename the program to reflect the fact that it has now gone beyond the demonstration phase. These positive results show that continued funding for this effort is important, and that the entire program should be completed. This may well be a case where the completed program gives results that are much greater than the sum of the individual items of work. The funds included in the bill are for the Corps of Engineers to continue design, real estate acquisition, monitoring of completed work, and initiation of continuing contracts. The conferees expect the Administration to request funds for this important program until it is completed.

The conference agreement includes \$9,000,000 for maintenance of Mississippi River levees. The funds provided above the budget request are to be used to provide gravel surfacing to selected locations on levee roads in Arkansas, Mississippi, and Louisiana.

The additional funds provided for maintenance of the Atchafalaya Basin, Louisiana, project are for dewatering and major lock repairs to Berwick Lock.

The conference agreement includes language proposed by the Senate directing the Corps of Engineers to continue design and real estate acquisition and initiate the pump supply contract using continuing contracts for the Yazoo Basin, Yazoo Backwater Pumping Plant, Mississippi, project. The conferees have agreed to include \$10,000,000 for this work.

OPERATION AND MAINTENANCE, GENERAL

The conference agreement appropriates \$1,940,167,000 for Operation and Maintenance, General instead of \$1,990,280,000 as proposed by the House and \$1,956,182,000 as proposed by the Senate.

The amounts provided for the Black Warrior and Tombigbee Rivers and Alabama-Coosa River projects include \$250,000 and \$50,000 respectively, for the Corps of Engineers to perform maintenance dredging of backwater areas.

The conference agreement includes \$3,174,000 for operation and maintenance of the Alabama-Coosa River project in Alabama. Of the total provided, \$200,000 is for implementation of a system-wide geographic information system for the project.

The conference agreement includes \$24,000,000 for operation and maintenance of the Tennessee-Tombigbee Waterway project in Alabama and Mississippi. The funds provided above the budget request should be used for additional dredging of the navigation channel.

The conferees have provided \$750,000 for the Cook Inlet, Alaska, project for the Corps of Engineers to initiate a modeling study of the Upper Cook Inlet navigation channel in conjunction with the ongoing modeling study for the Anchorage Harbor project.

The conference agreement includes \$1,000,000 for the Corps of Engineers to continue the San Francisco Bay Long Term Management Strategy, including \$200,000 for the Oakland Harbor operation and maintenance project.

The conference agreement includes an additional \$250,000 each for the Cherry Creek Lake, Chatfield Lake, and Trinidad Lake projects in Colorado. Frequent inundation of recreation areas is causing health and safety problems that require repair or replacement of facilities. It is not the conferees' intent to alter the Corps of Engineers lease and property accountability policies. It is the conferees' understanding that the State of Colorado has agreed to cost share these projects on a 50-50 basis. It is also the understanding of the conferees that the Secretary of the Army will not assume, nor share in, the future cost of the operation and maintenance of these recreation facilities.

The conference agreement includes \$750,000 for the Corps of Engineers to plan for and enter into a continuing contract to implement a demonstration project for innovative dredged material treatment technology for maintenance dredging of Bridgeport Harbor, Connecticut, under authority of section 345 of the Water Resources Development Act of 2000.

The conferees have provided \$4,709,000 for operation and maintenance of the Apalachicola, Chattahoochee, and Flint Rivers project in Georgia, Florida, and Alabama. The amount provided includes annual dredging of the channel, normal operation and maintenance of the George W. Andrews lock, spot dredging of shoals, continued slough mouth restorations, continued restoration efforts at Corley Slough, and other routine operation and maintenance of the project.

The conference agreement includes \$175,000 for the Corps of Engineers to initiate design for a replacement for the existing breakwater at the Grand Marais Harbor, Michigan, navigation project.

The conferees have provided an additional \$500,000 for the Missouri River, Rulo to the Mouth, project to continue implementation of actions related to the U.S. Fish and Wildlife Service biological opinion.

The conference agreement includes \$4,200,000 for operation and maintenance of the Calumet Harbor and River project in Illinois, including \$750,000 for design, engineering, and rehabilitation of the stone dock, and funds for additional maintenance dredging of the project.

The conference agreement includes \$5,400,000 for operation and maintenance of the Carlyle Lake, Illinois, project, including \$250,000 for rehabilitation of the Dam West Campground.

The conferees have provided \$8,862,000 for operation and maintenance of the Wolf Creek Dam, Lake Cumberland, Kentucky, project. The additional funds are for the purchase and use of a skimmer boat to remove trash and debris from the lake, and to make safety and other necessary improvements to the boat ramps at Old Fall Creek, Tate Access, Camp Attrahunt, and Ramsey Point.

The conference agreement includes \$11,000,000 for the J. Bennett Johnston Waterway project in Louisiana, including \$1,000,000

for bank stabilization repairs and \$400,000 for dredging entrances to oxbow lakes.

The conferees have provided \$3,360,000 for the Clearwater Lake, Missouri, project. The additional funds are to be used for the preparation of a new Water Control Plan, the continuation of design and construction of additional high water recreational facilities, and to reduce the maintenance backlog at the project.

Within the funds provided for the Morehead City Harbor, North Carolina, project, \$300,000 is for the Corps of Engineers to complete the Section 933 study concerning placement of maintenance dredging material on the beaches of Bogue Banks.

The conference agreement includes additional funds for mosquito control and continued improvements to low water lake accessibility at the Garrison Dam, Lake Sakakawea, North Dakota, project.

The conference agreement includes \$7,000,000 for the Muskingum River Lakes, Ohio, project. The additional funds are for the Corps of Engineers to conduct a system operations study, develop a flood warning system, and conduct a water quality study of selective withdrawal concepts at Tappan Lake.

The additional funds provided for the Bonneville Lock and Dam project in Oregon and Washington are for continued activities related to implementation of the Federal Columbia River Power System Biological Opinion.

The conference agreement includes \$9,200,000 for the Columbia River at the Mouth, Oregon and Washington, project. The funds are to be used for routine operation and maintenance of the project, additional dredging, jetty evaluation, studies of alternative dredged material disposal, and a dredged material disposal demonstration project at Benson Beach.

The additional funds provided for the Raystown Lake, Pennsylvania, project are for the Corps of Engineers to make improvements to the road leading to the Susquehanna Campground.

The additional funds provided for the Tionesta Lake, Pennsylvania, project are for the Corps of Engineers to upgrade the campground at the project.

The conference agreement includes \$6,890,000 for the Cooper River, Charleston Harbor, South Carolina, project. The additional funds are for the Corps of Engineers to make a lump sum payment to the South Carolina Department of Natural Resources to perform future operations of the fish lift.

The conference agreement includes \$6,732,000 for the Denison Dam, Lake Texoma, Texas, project. Pursuant to Sec. 838 of Public Law 99-662, the additional funds are for the Corps of Engineers to study the proposed reallocation of storage at the lake to water supply.

The Corps of Engineers is directed to update the Master Plans for the Ball Mountain, North Springfield, Townshend, and Union Village Reservoirs in Vermont, within the funds provided for each project.

The amount provided for the The Dalles Lock and Dam project in Washington and Oregon includes \$250,000 for work needed to meet Biological Opinion requirements.

The conference agreement includes \$11,500,000 for the Grays Harbor and Chehalis River, Washington, project, including funds for rehabilitation of the north jetty, the entrance channel study, and maintenance of the south jetty.

The conferees have provided additional funds for the Corps of Engineers to continue the drift and debris initiative being undertaken at Bluestone Lake, West Virginia.

The conference agreement includes \$5,000,000 for the Corps of Engineers to complete the transfer of the locks on the Fox River to the State of Wisconsin.

The conference agreement includes language proposed by the House directing the Corps of Engineers to undertake recreation improvements associated with the pool raise at Waco Lake, Texas.

The conference agreement does not include language proposed by the House regarding maintenance of the Tennessee-Tombigbee Waterway.

The conference agreement includes language proposed by the House regarding improvements to recreational facilities and environmental restoration at the Hansen Dam feature of the Los Angeles County Drainage Area project in California. The conferees have provided \$3,160,000 for this work. The amount provided for the Los Angeles County Drainage Area project also includes \$100,000 for additional maintenance on the Compton Creek segment of the project.

The conference agreement includes language proposed by the Senate regarding operation and maintenance costs incurred by the State of Delaware for the SR1 Bridge over the Chesapeake and Delaware Canal. The language has been amended to provide for reimbursement of those costs between October 1, 2002, and September 30, 2003.

The conference agreement includes language directing the Corps of Engineers to rehabilitate the disposal area for the Bodega Bay, California, project, perform maintenance dredging, and make dredged material available to the non-Federal sponsor.

The conferees are aware of the lead-time required to repair and rehabilitate recreational facilities for the upcoming Lewis and Clark Bicentennial Commemoration. Therefore, the Corps of Engineers may, within available funds, perform maintenance and repair of these facilities as is considered necessary to accommodate the anticipated visitor population.

FLOOD CONTROL AND COASTAL EMERGENCIES

The conference agreement appropriates \$15,000,000 for Flood Control and Coastal Emergencies instead of \$20,000,000 as proposed by the House and \$20,227,000 as proposed by the Senate.

The conferees believe that stackable, modular floodwall systems that have recently been developed could provide a significant advantage over traditional methods of fighting floods. One such system, which utilizes a series of inter-connecting plastic cells to form a flood protection barrier when filled with sand, has been successfully tested at the Waterways Experiment Station in Vicksburg, Mississippi. Accordingly, the conferees expect the Corps of Engineers to utilize funds available in the Flood Control and Coastal Emergencies account to invest in a stackable, modular floodwall

system so that, like sandbags, the material can be stockpiled and be available for deployment in areas of the country prone to flooding.

REGULATORY PROGRAM

The conference agreement appropriates \$139,000,000 for the Regulatory Program instead of \$134,000,000 as proposed by the House and \$144,252,000 as proposed by the Senate.

FORMERLY UTILIZED SITES REMEDIAL ACTION PROGRAM

The conference agreement appropriates \$145,000,000 for the Formerly Utilized Sites Remedial Action Program instead of \$150,000,000 as proposed by the House and \$140,298,000 as proposed by the Senate.

The conferees provide the Corps of Engineers with reprogramming authority for FUSRAP projects of up to 15 percent of the base of the receiving project. Reprogrammed funds must be excess to the source project.

GENERAL EXPENSES

The conference agreement appropriates \$155,151,000 for General Expenses instead of \$154,651,000 as proposed by the House and \$155,651,000 as proposed by the Senate.

The conference agreement includes language proposed by the House and the Senate which prohibits the use of funds to support a congressional affairs office within the executive office of the Chief of Engineers. This language has been included in Energy and Water Development Appropriations Acts since fiscal year 2000. The conferees continue to believe that an office of congressional affairs is unnecessary for the effective management of the Civil Works program by the Corps' headquarters, and the efficient coordination of Civil Works issues with Members of Congress and committee staff. The conferees are concerned that, despite the language that has been carried in this Act, the Office of Congressional Affairs has been involved in the exchange of Civil Works information between the headquarters and the Congress, at times causing delays in scheduling meetings and providing answers to Congressional inquiries. The conferees believe that the technical knowledge and managerial expertise needed for the Corps' headquarters to effectively address Civil Works authorization, appropriations, and policy matters resides in the Civil Works organization. Therefore, the conferees direct that the Office of Congressional Affairs not be part of the process by which information on Civil Works projects, programs, and activities is provided to the Congress.

In 1998, the Chief of Engineers issued a Command Directive transferring the oversight and management of the General Expenses account, as well as the manpower associated with this function, from the Civil Works Directorate to the Resource Management Office. The oversight and management of the Civil Works program lies solely with the Directorate of Civil Works, and it is funded through the General Expenses account to perform those duties. Both the House and Senate Committees expressed concern that the lack of oversight by the Director of Civil Works over the

General Expenses account could be having a detrimental impact on the performance of the Civil Works mission. Information recently provided by the Corps of Engineers regarding management of the General Expenses account has done nothing to lessen that concern. Therefore, the Corps of Engineers is directed to adhere to the guidelines described in the Senate explanatory statement regarding the allocation of non-labor discretionary General Expenses funds.

GENERAL PROVISIONS

CORPS OF ENGINEERS—CIVIL

Section 101.—The conference agreement includes language proposed by the House and the Senate which places a limit on credits and reimbursements allowable per year and per project.

Section 102.—The conference agreement includes language proposed by the House prohibiting the use of funds to support activities related to the Chicago Harbor Visitors Center.

Section 103.—The conference agreement includes language proposed by the Senate relating to the use of funds for closure or removal of the St. Georges Bridge across the Intracoastal Waterway, Delaware River to Chesapeake Bay, Delaware and Maryland.

Section 104.—The conference agreement includes language proposed by the Senate amending section 595 (h) (1) of Public Law 106–53.

Section 105.—The conference agreement includes language proposed by the Senate amending the authorization for the St. Paul Island Harbor, Alaska, project.

Section 106.—The conference agreement includes language proposed by the Senate amending the authorization for the Abiquiu Dam, New Mexico, emergency gate project.

Section 107.—The conference agreement includes language proposed by the Senate amending the authorization for the Las Vegas Wash and Tributaries (Flamingo and Tropicana Washes), Nevada, flood control project.

Section 108.—The conference agreement includes language proposed by the Senate amending the authorization for the Atlantic Intracoastal Waterway Bridge Replacement at Great Bridge, Chesapeake, Virginia, project.

Section 109.—The conference agreement includes language proposed by the Senate regarding the Civil Works mission of the Corps of Engineers. The language has been amended so that it only applies to funds provided for fiscal 2003 in this or any other Act.

Section 110.—The conference agreement includes language proposed by the Senate amending the authorization for the Terminus Dam, Kaweah River, California, project.

Section 111.—The conference agreement includes language amending the authorization of the Little Calumet River Basin (Cady Marsh Ditch) Lake County, Indiana, flood control project.

Section 112.—The conference agreement includes language providing credit for environmental dredging feasibility study work done by the non-Federal sponsor on the Indiana Harbor, Indiana, navigation project.

Section 113.—The conference agreement includes language providing credit to a local sponsor for wetlands restoration work on the Brownsville Navigation Channel, Texas, navigation project.

Section 114.—The conference agreement includes language authorizing replacement of the Chickamauga Lock in Tennessee.

Section 115.—The conference agreement includes language authorizing construction of a project under provisions of section 205 of the Flood Control Act of 1948 for the James River, Green County, Missouri.

Section 116.—The conference agreement includes language amending the authorization of the Amite River and Tributaries, Louisiana, flood control project.

Section 117.—The conference agreement includes language prohibiting expenditure of funds related to a proposed landfill in Tuscarawas County, Ohio.

Section 118.—The conference agreement includes language amending the authorization of the Brunswick Harbor, Georgia, navigation project.

Section 119.—The conference agreement includes language providing credit for work done subsequent to authorization by a non-Federal sponsor on the expansion of the Savannah Harbor, Georgia, navigation project.

Section 120.—The conference agreement includes language providing credit for work done by a non-Federal sponsor for a project being constructed under section 206 of the Water Resources Development Act of 1996 at Rose Bay, Volusia County, Florida.

Section 121.—The conference agreement includes language requiring amendment of the shoreline management plan of Lake Cumberland, Kentucky.

Section 122.—The conference agreement includes language providing credit for work done after October 1, 2002, by a non-Federal sponsor on the Des Moines Recreational River and Greenbelt, Iowa, environmental restoration project.

Section 123.—The conference agreement includes language amending the authorization of the Turkey Creek Basin, Kansas City, Missouri, and Kansas City, Kansas, flood damage reduction project.

Section 124.—The conference agreement includes language imposing certain specific requirements for the design and construction of the Long Lake Environmental Restoration, Indiana, project to be constructed under section 206 of the Water Resources Development Act of 1996.

Section 125.—The conference agreement includes language extending the authorization for the Missouri and Middle Mississippi Rivers Enhancement project.

Section 126.—The conference agreement includes language establishing an environmental assistance program in Idaho.

Section 127.—The conference agreement includes language amending provisions of section 531 of the Water Resources Development Act of 1996 affecting Southern and Eastern Kentucky.

Section 128.—The conference agreement includes language providing that credit be provided a non-Federal sponsor for work done after the execution of the environmental dredging design amendment on the Ashtabula, Ohio, navigation project.

Section 129.—The conference agreement includes language making revisions to the geographic provisions of section 313 of the Water Resources Development Act of 1992, as amended.

Section 130.—The conference agreement includes language proposed by the Senate providing for corrective maintenance at the Herring Creek—Tall Timbers, Maryland, project.

Provisions not included in the conference agreement.—The conference agreement does not include language proposed by the House to reduce employment at the Chicago District office of the Corps of Engineers, language proposed by the House and Senate regarding the dredge MCFARLAND, and language proposed by the Senate regarding the American River Watershed project.

The conference agreement does not include language proposed by the Senate concerning private sector contracting percentages by the Corps of Engineers. It is the sense of the conferees that the Corps is meeting requirements in this area and that the Corps should continue its emphasis on “contracting out” work whenever that represents the best use of its limited funds.

curity expenses, but applies the fee recovery requirement to this increment of funding.

OFFICE OF INSPECTOR GENERAL

The conference agreement includes \$6,800,000 as proposed by the House and Senate, to be offset by revenues of \$6,392,000, for a net appropriation of \$408,000. This reflects the statutory language adopted by the conference in fiscal year 2001 to reduce the fee recovery requirement to 94 percent in fiscal year 2003.

NUCLEAR WASTE TECHNICAL REVIEW BOARD

SALARIES AND EXPENSES

The conference agreement provides \$3,200,000, the same as the budget request.

TITLE V

GENERAL PROVISIONS

Sec. 501.—The conference agreement includes language directing that none of the funds in this Act or any prior appropriations Act may be used in any way, directly or indirectly, to influence congressional action on any legislation or appropriation matters pending before Congress, other than to communicate to Members of Congress as described in section 1913 of title 18, United States Code. This provision has been carried in previous Energy and Water Development Appropriations Acts.

Sec. 502.—The conference agreement includes language regarding the purchase of American-made equipment and products, and prohibiting contracts with persons falsely labeling products as made in America. This provision has been carried in previous Energy and Water Development Appropriations Acts.

Sec. 503.—The conference agreement includes language proposed by the House providing that none of the funds made available in this Act may be transferred to any department, agency, or instrumentality of the United States Government, except pursuant to transfer made by, or transfer authority provided in, this Act or any other appropriation Act.

Sec. 504.—The conference agreement includes language proposed by the Senate that extends the existing authority for the Denali Commission until 2008.

Sec. 505.—The conference agreement includes language proposed by the Senate that amends section 503 of the Energy and Water Development Appropriations Act, 2002, by extending the prohibition of oil and gas drilling in the Great Lakes until 2005.

Sec. 506.—The conference agreement includes a provision clarifying that the Department of Energy's discretionary indemnification authority will protect communities, lenders, and subsequent owners of former Department of Energy property to the same extent that communities impacted by base closures are protected.

Sec. 507.—The conference agreement includes a provision directing the Director of the Office of Management and Budget to transmit to Congress by April 1, 2003, a cross-cut budget displaying, by fiscal year, all CALFED Bay-Delta Program related ex-

DIVISION N—TITLE V—FISHERIES DISASTERS

Section 501.—The conference agreement includes section 501, included in the Senate, providing \$100,000,000 for various fishery disasters. The House did not include a similar provision.

TITLE VI

OFFSETS

The conference agreement includes a 0.65 percent across-the-board rescission to discretionary budgetary resources provided in divisions A through K of this Act, as well as to any previously enacted fiscal year 2003 advance appropriation. This rescission does not apply to the Head Start program, the Veterans' Medical Care program, the Women, Infants, and Children nutrition program, or the space shuttle program. Specific exemptions for these programs are also included in the respective sections of this joint resolution.

TITLE VII

BONNEVILLE POWER ADMINISTRATION BORROWING AUTHORITY

The conference agreement provides \$700,000,000 of new borrowing authority to the Bonneville Power Administration as proposed by the Senate. The conferees direct the Bonneville Power Administration to submit a detailed budget justification, by project, for its total capital improvement program to the House and Senate Committees on Appropriations not later than March 30, 2003, and to submit thereafter as part of the annual budget request, for approval by the House and Senate Committees on Appropriations.

DIVISION O

PRICE-ANDERSON ACT AMENDMENTS

The conference agreement modifies bill language as proposed by the Senate to extend portions of the Price-Anderson Act through December 31, 2003.

DIVISION P—U.S.-CHINA ECONOMIC AND SECURITY
REVIEW COMMISSION

The conferees have included, under Division P, language and funding regarding the U.S.-China Economic and Security Review Commission.
